About LAE

Loyola Academy of Excellence (LAE) was started with a focus towards fostering a penchant for learning among students through creative and innovative activities. An initial step towards achieving this aim is conducting objective tests in various subjects that provide an alternative perspective to the students about examinations and thereby empowering them.

LAE has come up with a Capacity Building Initiative (CBI), which will provide an opportunity for the students to kindle their interest in learning, nurture their inherent talents and achieve their aspirations.

As a step towards bridging the gap between rote learning and cognitive learning, Capacity Building Assessments have been planned to be conducted in all schools for students from Classes 3 to 12. This exercise helps to stimulate critical thinking, problem solving and logical reasoning capability, in addition to, and in line with their academic knowledge. This will eventually lead to improving their psychometric ability as well.

With the inculcation of critical thinking and conceptual learning promoted by the LAE OLYMPIAD Examination, students will comfortably ace Higher Education Entrance Examinations like NEET, IIT - JEE, CAT, CUET, CLAT, etc and also excel in Competitive Examinations like TNPSC, UPSC,RRB other Bank Examination etc.
